2017-18

A drainage pipe was purchased by the PC, and a grant given from BANES to cover the cost apart from a £500 contribution from the parish council. VAT was paid and reclaimed on the purchase.

VAT expenditure was higher in the year to the end of 2018 as it was paid and reclaimed on salary payments made to the clerk. It was subsequently discovered that the clerk had to be paid through PAYE and this has now been rectified.

2018-19

The public phone box was disconnected from the electricity and refurbished. A donation of £2,000 was made to the Village Hall as part as a major refurbishment project. The Village Design Statement was completed and published, which required the services of a consultant. The document was printed and distributed to all households in Priston.

No VAT was reclaimed in 2018-19.
